

FLEXIBLE VEHICLE ACCESS FOR MODERN BUSINESSES

Dedicated Digital Pool Cars for modern businesses.

Fully managed vehicles with integrated booking, access and vehicle control technology.

FLEXIBLE VEHICLE ACCESS WITHOUT THE COST AND COMMITMENT OF OWNERSHIP

Whether your employees need a vehicle for client meetings, site visits, temporary projects or day-to-day business travel, Days iDrive provides a digital pool car solution that offers flexible access whenever it's required.

Designed specifically for B2B organisations, dedicated vehicles remain available to your teams while helping reduce or remove reliance on Grey Fleet usage.

Through a simple mobile app, employees can reserve vehicles, unlock doors, start journeys and return vehicles with complete visibility and control.

Powered by a globally proven platform already operating successfully around the world, Days iDrive delivers a seamless business travel experience from start to finish.

Simply reserve, unlock and drive.

RESERVE.

UNLOCK.

DRIVE.

RESERVE.

Book vehicles through the Days iDrive mobile app, available on Android and iOS. Select your dates, times and vehicle requirements in just a few taps.

UNLOCK.

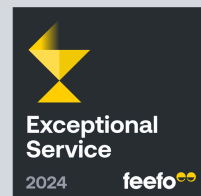

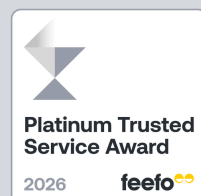

When your booking begins, use the app to access your vehicle and complete a quick pre-journey check.

DRIVE.

Access a fully managed Digital Pool Car with integrated technology for vehicle reservation, entry, ignition start/stop and return, providing a seamless experience for your organisation.

When your trip is complete, return the vehicle to its designated location.

At the end of your journey, return the vehicle to its designated location and complete the return process through the app, ensuring it's ready for the next booking. Simple, efficient and designed around your business.

DEDICATED TO YOUR BUSINESS NEEDS

Dedicated vehicles remain available to your teams around the clock, with simple app-based access and integrated management through the iDrive Car Share software solution.

Supporting efficient operations, improved utilisation and greater control across your organisation.

Looking to drive your business forward without the complexity of managing vehicle access? Days iDrive provides dedicated Digital Pool Cars for businesses, supported by fully integrated booking and vehicle access technology.

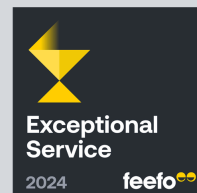

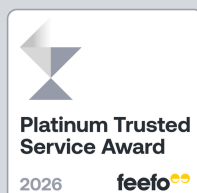

Eliminate many of the administrative demands associated with vehicle management while improving utilisation, visibility and employee access.

Every booking includes:

- ✓ Fully managed vehicles for servicing and routine maintenance
- ✓ MOT testing and road tax
- ✓ Breakdown assistance
- ✓ Digital booking platform via Android and iOS apps
- ✓ Integrated vehicle access, entry and ignition controls
- ✓ Newest hybrid, electric and conventional powertrains available
- ✓ Vehicle management and support

Pricing from £2.50 per vehicle, per month, plus standard rental costs.*

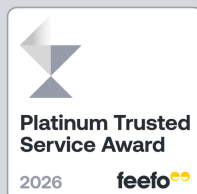

Allow your teams to focus on business activities while we manage the vehicles.

*Available on dedicated Days iDrive vehicles with fitted hardware. Minimum 12-month vehicle commitment applies.

A SMARTER WAY TO MANAGE BUSINESS MOBILITY

Efficient mobility solutions designed to support your organisation's changing needs.

Days iDrive is a Digital Pool Car scheme designed for B2B organisations, providing flexible vehicle access while reducing the need for employee Grey Fleet usage and removing the complexity of managing additional company vehicles.

Dedicated vehicles feature fully integrated digital technology allowing employees to reserve vehicles, unlock doors, start journeys and complete returns directly from a mobile app.
